Foreword xiii

NEW INSTRUMENTS AND TECHNIQUES

Design concept of a new ultra-high-voltage electron microscope at Osaka University
K. Ura 1

Ultra-high-resolution HVEM (H-1500) newly constructed at NIRIM. I. Instrumentation
Y. Matsui, S. Horiuchi, Y. Bando, Y. Kitami, M. Yokoyama, S. Suehara, I. Matsui and T. Katsuta 8

Recent evolution of HVEM in France
B. Jouffrey 21

High-voltage electron microscopy in the Federal Republic of Germany: past, present and future
A. Seeger and F. Phillipp 32

Grooved fluorescent plate for parallel-detection electron energy loss spectroscopy in ultra-high-voltage electron microscopy
K. Yoshida, A. Takaoka, K. Ura, T. Katsuta and I. Matsui 45

Quantification in high-resolution electron microscopy with the imaging plate
D. Shindo, K. Hiraga, T. Oku and T. Oikawa 50

Convergent beam electron diffraction in the high-voltage electron microscope with continuously variable reference voltage for lenses and alignments
K. Kuroda, C. Morita, S. Arai, N. Yokoi and H. Saka 58

High-voltage electron diffraction study of structure factors of Pd and Pt
S. Matsumura, T. Ohboshi, K. Oki and Y. Tomokiyo 65

Evaluation of accuracy in the ALCHEMI method
Y. Nakata, T. Tadaki and K. Shimizu 72

IN SITU EXPERIMENTS I: PLASTIC DEFORMATION

Recent progress in in-situ deformation experiments in HVEM
H. Saka and H. Teshima 81

Dynamic observation of dislocation movement across twin boundaries in the lamellar structure of TiAl intermetallic compound
T. Hanamura, R. Uemori, M. Tanino and H. Morikawa 86

In situ deformation of proton-irradiated metals
M. Suzuki, A. Fujimura, A. Sato, J. Nagakawa, N. Yamamoto and H. Shiraishi 92

IN SITU EXPERIMENTS II: HIGH TEMPERATURE BEHAVIOR AND OTHERS

Some aspects of HVEM in the study of materials
M.J. Goringe 100

In situ investigations of plastic deformation and pseudo-elasticity of zirconia ceramics
M. Komatsu and H. Fujita 105

In situ observations of solid–liquid interfaces
H. Saka, K. Sasaki, T. Ohashi, I. Ohtsuka, T. Kamino and M. Tomita 110

Grain boundary premelting in thin foils of deformed copper bicrystals
F. Inoko, T. Hama, M. Tagami and T. Yoshikawa 118

Aluminum/ceramic interface structure and its related properties
M. Naka 128

IN SITU EXPERIMENTS III: RADIATION EFFECTS

History, present status and future of the contribution of high-voltage electron microscopy to the study of radiation damage and defects in solids
M. Kiritani 135

Characterization of Czochralski Si crystals by HVEM
R. Oshima and G.-C. Hua 160

Observations on quick fluctuation of atom images of Si crystal lattice under 800 kV electron irradiation
H. Hashimoto, Y. Makita, Y. Yokota, T. Ikuta, M. Hashimoto and C.J.D. Hetherington 171

HRTEM observation of electron-irradiation-induced defects penetrating through a thin foil of germanium
S. Takeda, M. Hirata, S. Muto, G.-C. Hua, K. Hiraga and M. Kiritani 180

Radiation-induced solute segregation in Al and Ni binary alloys under HVEM irradiation
T. Ezawa and E. Wakai 187

In-situ observation of defect cluster formation in metal and alloy under electron/ion dual-beam irradiation
S. Ohnuki, Y. Hidaka and H. Takahashi 197

Accumulation and annihilation processes of cascades in metallic and nonmetallic crystals under irradiation with ions and/or electrons
C. Kinoshita, H. Abe, K. Fukumoto, K. Nakai and K. Shinohara 205

Defects occurring at or near surfaces in α-Al_2O_3 during electron irradiation
Y. Tomokiyo, T. Kuroiwa and C. Kinoshita 213

In situ study of effects of ion irradiation on solid-state crystallization of cobalt disilicide thin films
C.W. Allen and D.A. Smith 222

HIGH RESOLUTION

Ultra-high-resolution HVEM (H-1500) newly constructed at NIRIM. II. Applications to materials
S. Horiuchi, Y. Matsui, Y. Kitami, M. Yokoyama, S. Suehara, X.J. Wu, I. Matsui and T. Katsuta 231

The study of zeolites by HVHREM
O. Terasaki, T. Ohsuna, V. Alfredsson, J.-O. Bovin, D. Watanabe and K. Tsuno 238

A new 1000 kV HREM for organic crystal study
S. Isoda, S. Moriguchi, H. Kurata, T. Kobayashi and N. Uyeda 247

Degradation of the high-T_c superconductor $YBa_2Cu_3O_{7-y}$ studied by high-resolution electron microscopy
S. Nagakura, Y. Hirotsu, J. Sasaki, K. Miyagawa, Y. Nakamura and M.E. Brito 254

High-resolution electron microscope study of lamellar boundaries in Ti-rich TiAl polysynthetically twinned crystals
H. Inui, A. Nakamura, M.H. Oh and M. Yamaguchi 268

HREM study of disclinations in MgCd ordered alloy
Y. Kitano and K. Kifune 279

NEW TRENDS I: THREE-DIMENSIONAL OBSERVATION – LSI

The evolution of HVEM application in Antwerp
J. Van Landuyt 287

Stereoscopic observation and determination of surface orientation of voids in stress-thermal-migrated-aluminum lines of LSI with UHVEM
A. Takaoka and K. Ura 299

HVEM observations of stress-induced voiding in Al lines for LSI
H. Okabayashi, A. Tanikawa, H. Mori and H. Fujita 306

Cross-sectional observations of gold–silicon reaction on silicon substrate in situ in the high-voltage electron microscope
N. Sumida and K. Ikeda 313

NEW TRENDS II: COMBINATION WITH OTHER TECHNIQUES

Structural and valence electronic analysis of electron-irradiation-induced foreign-atom implantation by a combination of UHVEM and AES
H. Yasuda, T. Sakata and H. Mori 321

Surface wave excitation Auger electron spectroscopy of Si(001) reconstructed surfaces
H. Nakayama, T. Nishino, K. Ueda, S. Takeno and H. Fujita 329

NEW TRENDS III: NON-EQUILIBRIUM PHASES

The study of self-organization processes in crystals by high-voltage electron microscopy
A. Seeger, N.Y. Jin, F. Phillipp and M. Zaiser 342

Formation of non-equilibrium solid phases by high-energy electron irradiation
H. Mori and H. Fujita 355

A study of amorphization and microstructural evolution of graphite under electron or ion irradiation
K. Nakai, C. Kinoshita and A. Matsunaga 361

Atom clusters – new applications of high-voltage electron microscopy "micro-laboratory" to materials science
H. Fujita 369

Anomalous surface structure of fine germanium particles
M. Mitome and K. Takayanagi 382

UHV microscopy of surfaces
R. Ai, M.I. Buckett, D. Dunn, T.S. Savage, J.P. Zhang and L.D. Marks 387

Observations by HVEM of atomic clusters embedded in MgO crystals
N. Tanaka, K. Kimoto and K. Mihama 395

Author index 403

Subject index 406
